

Speak-Up Program

On Fridays, we will have Speak-up. It is the same program used in first grade only at a second grade level. It will be familiar to most of you.

At the beginning of each week, your child will be assigned a topic to speak about on Friday. Please help him/her prepare for the presentation by practicing the questions on the Speak-Up sheet. Also, please review the following skills to guide your child with their oral speaking.

- * correct posture and eye contact
- * speaking in complete sentences
- * proper speed and articulation
- * knowledge of the subject matter

This is a required homework assignment. Thank you for helping your child. The students feel more comfortable speaking in front of their classmates when they have had the opportunity to practice at home. During short weeks, the Speak-Up activity will be omitted.
